

Hydrogeological Survey in Faryab- Afghanistan

FORM T-1: TRAINING COURSE SUMMARY SHEET	V1	NORPLAN 
--	----	--

HARDDISK:Users:sveinstoveland:Dropbox:Hydrogeology Afghanistan (1):Trainig_capacitybuilding:New Folder:Sumary sheet
1.4 Well Design b NE.docx

Course title:		<i>Well design</i>		<i>Course no 1-4</i>									
				<i>Date prepared:</i>									
Training purpose	Enhancing of capacity building for monitoring of groundwater resources, find out productive water bearing zones with suitable quality, proper well selection side, and finally obtaining of suitable qualitative and quantitative groundwater resources.												
Target group	Education level: (degree/ techn, etc Hydrogeologists ,technicians		Experts/ national planners/ provincial/ district National expert, Provincial and District areas										
Course details:	<table border="1"> <tr> <td>.Course language(s) Persian</td> <td></td> <td></td> </tr> <tr> <td>Duration(days); 4 Days</td> <td>No. participants/ course:10</td> <td>Theoretical /practical/training? 1 3</td> </tr> <tr> <td>Planned course location(s) Shirintagab</td> <td>Responsible presenter National</td> <td>Handouts to be prepared by: presenter</td> </tr> </table>				.Course language(s) Persian			Duration(days); 4 Days	No. participants/ course:10	Theoretical /practical/training? 1 3	Planned course location(s) Shirintagab	Responsible presenter National	Handouts to be prepared by: presenter
.Course language(s) Persian													
Duration(days); 4 Days	No. participants/ course:10	Theoretical /practical/training? 1 3											
Planned course location(s) Shirintagab	Responsible presenter National	Handouts to be prepared by: presenter											
Summary syllabus	<p>Well design: Based on drilling lithological log, time log, drilling action log and geophysical logger for the hydrogeologist to analyze and select pips and filter interval ,using of software for well design.</p>												
Training equipment required	<p>Listing of equipment to be made available for course Overhead projector, beamer, white board, for presentation. Geophysical logger</p>												
Training material	<p>Can exist material be used? If so what/ from where? Topographical, and Geological maps. Stationary ,hand out teaching material If no: what material needs to be developed? And By who?</p>												
Field/ practical training.	<p>Preparations needed, responsible officer(s) Training materials , Find out the strata for well screening and pips</p>												
Prepared by	<p>Prepared by:</p>
